PROFESSIONAL EXPERIENCE

Bizsense Solutions Pvt. Ltd., Nagpur, MH

2021 – Present

Senior QA Automation Engineer (2021 – Present)

- Designed, wrote and implemented system-wide test plans and cases for automation test frame components of products (TestNG, Selenium Webdriver, Java).
- Mentored and provided guidance for QA automation team members across 2 locations (Nagpur and Colorado).
- Wrote, implemented and enhanced existing automation tests in the framework, decreasing testing time by 30%.
- Conducted automated tests on 2 client software projects using automation tools such as Selenium and Postman.

Digitate (A TCS venture), Pune, MH

2020 – 2021

Associate QA Automation Engineer (2019 – 2021)

- Developed a basic data-driven automation framework from scratch for the Product Analytics Team. Wrote tests to support multiple browsers like Chrome and Firefox.
- Worked as a team member consisting of 2 resources, developing automation test cases to ship a more robust application.
- Wrote API tests with an in-house test framework and configured it to run on Jenkins for automatic report generation.
- Developed load tests using JMeter, found and reported load test scenarios which slowed the server down to increase the response time of the web application by 2%.
- Was responsible for documenting and writing release notes for the release cycle.

Tata Consultancy Services (TCS), Mumbai, MH

2018 – 2020

UX designer / Developer

- Designed internal application for Malaysia Airlines, used by its ground staff.
- Developed the front-end UI for a leading Canadian TV service provider for its Samsung TV application built on Tizen OS.
